PROFESSIONAL SUMMARY

Passionate and detail-oriented Full-Stack Web Developer with a Bachelor of Science in Information Technology and hands-on experience developing modern web applications using Laravel, PHP, JavaScript, and MySQL. Experienced in designing responsive user interfaces, building scalable backend systems, and managing relational databases. Completed internships in both software development and data management, strengthening problem-solving, collaboration, and technical support skills. Dedicated to engineering efficient, user-friendly digital solutions that optimize organizational workflows.

PROFESSIONAL EXPERIENCE

Out-Campus System Developer Intern

Apr 2026 – May 2026

DepEd Digos Division – IT Department

- Developed and maintained internal web-based applications to streamline administrative processes and digital services.
- Assisted in designing, testing, and implementing new system features based on departmental requirements.
- Diagnosed, debugged, and resolved software issues to enhance overall system performance and reliability.
- Collaborated closely with developers and staff to improve application user experience and technical workflow.
- Provided end-user technical support, system deployment assistance, and software onboarding.

In-Campus Data Encoder Intern

Feb 2026 – Mar 2026

Davao del Sur State College – Quality Assurance Office

- Encoded, verified, and maintained institutional records with a high level of accuracy and confidentiality.
- Organized and updated quality assurance documents and databases for accreditation readiness.
- Assisted in preparing comprehensive reports and documentation for institutional compliance activities.
- Ensured data integrity by reviewing and validating encoded information prior to submission.

EDUCATION

Bachelor of Science in Information Technology

Graduated: 2026

Davao del Sur State College

Relevant Coursework: Software Engineering, Web Development, Database Management, Information Systems, Systems Analysis & Design

FEATURED PROJECTS

NutriKid – School Nutrition Management System

Laravel • PHP • MySQL • Bootstrap • JavaScript

- Developed a web-based nutrition management system for School-Based Feeding Programs (SBFP).
- Automated BMI computation, nutritional status classification, and student progress monitoring.
- Implemented role-based authentication, reporting, and data analytics dashboards.

QR Attendance Monitoring System

Laravel • PHP • MySQL • Tailwind CSS • JavaScript

- Built a QR code-based attendance system with real-time tracking and automated log generation.
- Developed an interactive analytics dashboard for monitoring attendance records.
- Streamlined event and class check-ins with fast scanner verification.

Inventory Management System

Laravel • PHP • MySQL • Bootstrap • JavaScript

- Created a web-based inventory management system for tracking products and stock movements.
- Implemented inventory monitoring, transaction history logs, and low-stock notification alerts.

Student Information System

Laravel • PHP • MySQL • Bootstrap • JavaScript

- Developed a centralized student information portal for managing academic profiles and enrollment records.
- Built interactive management dashboards for record filtering, data export, and administrative reporting.

TECHNICAL SKILLS & LANGUAGES

Programming Languages: PHP, JavaScript, Java, Python

Web Technologies: Laravel, HTML5, CSS3, Bootstrap, Tailwind CSS, Flask

Database Management: MySQL, phpMyAdmin

Development Tools: VS Code, Cursor, Git, GitHub

Design & Productivity: Canva, Figma, Microsoft Office Suite

Spoken Languages: Filipino (Native), English (Proficient)
